Senator Assails Price Fixing as Having Curtailed Production.

Special Desputch to THE SUN WASHINGTON, Feb. 27 .- Senator Henry Cabot Lodge (Mass.) flayed the Fuel Administration to day in the Senate chamber. He served as ranking Republican member of the Committee on Manufactures, which recently investigated both the coal and sugar shortages.

His speech was predicated upon the exhaustive testimony adduced before the committee, and he did not mince words or phrases in characterizing the work-less day orders with which the campaign for fuel conservation had ended as "the complete confession of incom-petence and failure" by Dr. Garfield's high priced organization of "ama-

Senator Lodge took the ground that in the adoption of a general policy of price fixing the United States had failed to accept the lesson already taught by Germany and France that regulation of prices through Govern-mental edict, unaccompanied by a con-crete policy of stimulating and increascrete policy of stimulating and increas-ing production, is a proved failure. Price fixing, he charged, had curtailed rather than stimulated production. "The result of the Fuel Administra-tion's policy was to add to the enormous difficulties of the railroads rather than to subtract therefrom by creating chaos in distribution and superimposing on this distress public alarm and suspense."

the Massachusetts Senator explained, the fundamental error of the Administration was that a policy of fixing prices was adopted, instead of one of stimulating and increasing production. "In justice to Mr. Hoover, he made every effort to get rail distribution and get Java sugar. "The result of the Fuel Administration's policy was to add to the already enormous railroad difficulties by creating chaos in distribution and adding to all this suspense, alarm and uncertainty due to fixing an arbitrary price.
